

ACOUSTIC FOAM PRODUCTS

"Specialists in acoustic and sound proofing foams including acoustic wedges, pyramids, tiles and bass traps"

Using our in house CNC foam cutting equipment we design and manufacture a variety of acoustic tiles, wedges, pyramids and bass traps for a number of leading acoustic solution providers. Our conversion unit is equipped with the latest CNC cutting and profiling equipment which enables us to cut two and three dimensional shapes with precision accuracy. Our in house design team is available to work directly with you to develop and refine your products as necessary.

Grade Ref.	Colour	Density kg/m	Hardness	Feel	Application
GB25M	Charcoal	24-26	115-145	Medium	Utility grade for general acoustic applications.
GB55M	Dark Grey	55-60	220-260	Hard	High density acoustic specification foam for high end acoustic applications
GB90H	Black	90	180-220	Hard	Impregnated Barrier Foam for Acoustic, MOD, Aircraft, Engine Bays

All of the acoustic grades we provide have been specifically designed and tested for acoustic applications, whether you are looking for a high end performance acoustic foam or a budget foam for bulk application we can help.

We're ready when you are – please phone or email us today and see how we can help you with your acoustic requirements. Tel: [01494 441177](tel:01494441177) or Email: sales@gbfoam.com
